CRIMINOLOGY: THEORY, RESEARCH, AND POLICY BY GENNARO F. VITO, JEFFREY R. MAAHS PDF

Criminology: Theory, Research, and Policy, Third Edition uses an interdisciplinary approach to examine and explain how and why crime occurs. Comprehensive coverage of a variety of crimes and leading criminological theories is provided and supported by new, relevant case studies. By making the connection between theory, research, and policy, this revised and updated Third Edition demonstrates the relevancy of criminological theory in the public attempt to control crime while providing justice. The emphasis on these three elements with pertinent discussions and examples is what sets this text apart from other criminology titles. New Material added to the revised and updated Third Edition: * New Cybercrime chapter provides cutting-edge information on the illegal use of computers and the internet * New Chapter dedicated to Terrorism * Includes discussion of elder abuse/crimes and human trafficking * Provides new information on White-collar crime * Updated case-studies to reflect relevant crime typologies Additional Features: * Theory in Action boxes throughout the text provide notes that relate theoretical premises to real-world cases and events. * Each chapter contains objectives, key terms, and a detailed summary of important points. Instructor Resources: * PowerPoint slides * Test Bank * Instructor Manual with learning objectives

Great book

By Jaimie

I had to purchase this book for my Crime and Behavior course and I really enjoyed reading through this book. It is a somewhat tedious read and it has a lot of information but the information is valid and very helpful. I kept this book, among a few, from college courses. This book will definitely help me in my career to just have around to make reference to.

Great General Introduction

By John Matlock

A most interesting book about crime in virtually all of its aspects from terrorism to the impact of nature vs.

nurture on creating a criminal, from a basic discussion of what is crime to does prison help reduce crime. It is particular interesting in that in most cases the evidence gathered from studies of the problems is conflicting. For instance in the discussion on the trend in many states to allow more people to carry concealed handguns the authors quote several different surveys and studies that have been conducted and which can be used to support any view you may choose to hold. This procedure is used in many of the more controversial views held in our present culture.

The book is well researched, well written and does not generally take any kind of a position, leaving that up to the reader. Further in each general area they discuss, a list of their sources are given so that the reader wanting more information on that area will know what they used to base their statements.

Great to use as a source for a paper

By Autumn

I am working on my graduate degree in Criminal Justice, I bought this book as a source for my 20 page term paper. I have been stocking up on used criminal justice books all semester to use as sources for my 20 page term paper. I figure it is easier to just buy them for cheap so I can highlight them and make other notes on them instead of renting something from the library that I have to return. Out of all of the books that I bought, I found myself relying on this one the most because it is the easiest to read, it puts things into perspective and has a lot of useful information. I know I will use this as a source for other classes to come so I cannot be happier with this purchase.
