Essential Tool For Non-Native Speakers

By Amazon Customer

I will keep this short and to the point. I bought the first edition of this book back in the early 1990's and it

propelled me on my way to understanding Italian at a much higher level than just interacting with the general public when I lived in Italy. I feel it is because of this book that I am often complemented by native speakers on the fact that I speak very proper Italian (I am told better than some who grow up in Italian speaking households!) I am happy to see a new edition of this book out because my first edition is well worn and it's past time for an update. I no longer live in Italy but I do use this book to keep my skills fresh. This book along with an Italian/English dictionary can help anyone learn to read, speak and understand proper Italian.

Italian Verbs

By N. Osellame

This book on Italian verbs is very comprehensive and has lots of other information that a dictionary would have, i.e. numbers, etc. I find it very helpful as a reference while I am learning Italian on audio tapes. I recommend it highly.
