Poor Translation

By A Customer

This is an absolutely unforgivably poor translation--famous episodes are not even recognizable. He took a famous classic work of literature--full of pathos, humor, and drama, and not least of all romance--and turned it into tasteless cardboard. Buy McCullough's translation.

1 of 1 people found the following review helpful.

Before Genji, there was Ise

By Walker

While the Tale of Genji is the bedrock of all Classical Japanese literature, The Tales of Ise came first. Written in episodic form, each short Ise chapter blends prose and poetry, in the themes of nature image and live longing.

While having no plot per se, it does roughly track the ages of a man, a ladies man, from very young to old age facing death.

If you like Japanese poetry, this is a must read. It is also an appetizer to the much longer Genji, written 50 years later.
