Excellent introduction to literary criticism of the OT

By Zachary

This is an absolutely necessary read for anyone who is interested in better understanding the OT, either at a layman's level or for someone who is interested in serious scholarship of the OT. I highly recommend it for anyone who is simply interested in better understanding the OT but does not have an extensive background in either biblical scholarship or literary criticism. For those who are interested in biblical scholarship this book provides an excellent starting point for understanding the dynamics of literary criticism as applied to the Bible.

A rough familiarity with the biblical stories is necessary, though he typically provides his own translation of those sections that he will look at in detail. A basic familiarity with the various approaches in biblical criticism would be extremely helpful for better understanding his goal in writing. A knowledge of Hebrew is not necessary as he always explains significant nuances of the language either in his translations or

commentary (though it would, of course, be immensely helpful!).

The book is both a defense and demonstration of a literary approach to OT narrative. He provides a brief overview of the history of literary approaches to the Bible, showing how past interpreters of the OT (including sections in the Midrash) have on occasion made observations that approach literary criticism, but that a well-developed system of literary analysis has for the most part been lacking in most OT scholarship. He also theorizes about the reasons why the Hebrew authors should have utilized narrative (as opposed to, for instance, myth) in their theological writings.

Most of the book is composed of chapters that expound different techniques used by the biblical authors. After an explanation of the technique, he typically gives examples demonstrating how an understanding of the technique can aid in the interpretation of the text. What I found to be the most interesting parts of the book were his chapter conclusions, where he makes a few observations about the interplay between the theology of the authors and the reasons why they utilized that particular technique.

The reader need not agree with either his interpretations nor his assumptions about the origin of the text. In the final chapter he notes that a person can disagree with interpretations, and that his goal was not necessarily a full-fledged commentary on his sections, but merely a demonstration of a particular technique. As for his assumptions of the origin of the text, he makes no claim to his own religious devotion or beliefs. He assumes, for example multiple authors behind the Pentateuch (as most biblical scholars do). Even for a person who is committed to Mosaic authorship, this should not be reason to dismiss his observations about the literary quality of the text, as his primary concern in this book is always the final form of the text.

The only minor thing that I can think that MIGHT have made this book better is divisions within the chapter to help the reader better understand when he is transitioning.

In sum, this should introduce the student of the Bible to the various techniques used by the authors of the biblical narratives, and trains him/her to ask the right questions about the text when they arise.

For those who know, Reading is drinking.

By Ignotus

It is always a delight to read books about the Sacred Scriptures written by those who 'are at home' with the Hebrew Language. Robert Alter is one of those -he reads Hebrew as I read English. More than that, he has a 'feeling' and a 'taste' for the Language. He understands the structure and the 'in-built' nature of the Language which enables him to see things that others do not. Reading a Text for such people is more than reading- it penetrates into the heart of the words and his whole mind and heart automatically re-act to what is read. This is shown very clearly as the Author takes the Reader through the saga of stories about David and Jacob. I found them wonderful. Read the book- it will teach you how to approach and read the Sacred Scripture with a Biblical mind. If you do not read Hebrew, the next best thing is to read those who do and learn what the Hebrew Text actually says. It is all very exciting. Happy reading!!
