Love Living like a Rock Star

By Kimmy

LOVE this book! Monica Bossinger's, "The Life and Luck of a Bachelorista," is a must read for women of the world. It's an insightful, witty look at how fulfilling and empowering single life can be for modern women. The illustrations fit the style of the book perfectly and are a delight to see as you eagerly read each chapter to get to the next! You won't be able to put this book down.

Monica's stories are infused with humor and insight from her personal experience, as well as her thoughts about her single and married friends' situations. It makes you feel confident about living the life you want without regrets - and without guilt for not conforming to out-dated social norms. "Living like a rock star" is accepting and being true to who you are and not settling. It's about being generous to others and respecting the diverse choices and lives that make up the world we live in. After reading Monica's book you'll feel like anything is possible. Her advice, quotes and real-life examples are right on the money - say it again sista!

It's a great read for women of any age as it celebrates the growing population of Bacheloristas, and focuses on the positives that come from being single. Monica has a knack for saying what we are all thinking and gives voice to the thoughts I'm sure we have all had at one time or another. This book is a gift to inspire and support. (I am sending a copy to every Bachelorista I know and love.)

A MUST READ

By Jennifer D. Duff

The Life & Luck of a Bachelorista is a must read for anyone who has struggled in the realm of singlehood. Bossinger, with her powerful antidotes and skillful repartee, has constructed a brilliant and unique approach to redefining what it means to be solo in the 21st century. She effectively chips away at the in-the-box-stereotypes that attempt to suffocate single women. Bossinger empowers her readers by offering savvy advice through the compellation of experience, research, quotes, and charming illustrations (kudos to artist Isabelle Fregevu). By speaking directly to her readers, Bossinger makes them feel as if the book was written just for them: a budding army of Bacheloristas ready to conquer the world.
