Storytelling essential

By Sue King

I bought this text because it was required for my Storytelling Class at South Mountain Community College. I was delighted to find that is well written and provides the perfect primer for storytelling.

Too many typos!!!!

By monkeycat44

I was required to purchase this text book for a humanities class. I feel like I paid sixty-three dollars for a "book" that's thinner than some magazines and a bunch of typos. I don't know who signed off on the copy that went to print but they let some major errors get through, and I'm only in the second chapter! I've come across repeated words as well as whole sentences getting printed twice. What really urked me was when the end of a sentence was omitted. Seriously the worst textbook I've had to purchase.
