The Secrets of Windows Command Prompts Exposed

By The Dreamer

I liked the book, although I was aiming at something much more updated; there should be a "part2" of this book, since it is all about Windows 2000, there should be one for Windows 7 !!!

Good book

By Seth Wilkins

WOW wooooooooow wow

I have never seen anything like this before,,,A must get, here my fav chapter in order. Chapter 6 network connectivity commands is great, chapter 1 with all the shortcuts using the command prompt, then chapter 1 part II is cool, then chapter 4, 8, 11, 14, 3, then 12 and so on. I like them all. The Micelenious chapter is small but has some little tricks. There is a whole lot i have seen here that i did not see in other books. I wish the author has given more tips on the chapter 14 and 15 :)

What about how to tweak the dos prompt and so forth,,, cool cool cool. The first book i bought without any regrets....

Actually, i have started to create really neat tricks using this book. Compared to other books this is the best so far.

Thank you author

Seth Wilkins
