Personal Transformation with Adventure

By Joy

This book is truly an anointed adventure to go through. It never stops giving you revelatory information. This author doesn't just say that when you change your thoughts you will transform your thinking, she reveals why and how it happens as you read the book. The knowledge of "aha" moments from the revealed truth, begins to cause a miraculous transformation in your mind. It has an amazing way of tying together discovered science and known biology with what the Word of God says. I never realized how much I didn't understand about my own physiology and the way my thinking causes chemicals to be released. This has made me realize that if I change my stinkin thinkin, I can create a life I never have known possible.

This book has given me a "renewed hope" that I can change my life and I now believe that God does have a plan, only I can find and fulfill. This is a "must read" for everyone. If you are sick, or feel like your life has been a series of going around the same mountain, or if you have spent a life of broken relationships and wondered "why", YOU NEED THIS BOOK!

Great book!

By Pamela Sautter

This is one of the best self-help books out there. I would highly recommend this book to anyone whose life is less than abundant. The author explains scientifically and spiritually how what we think changes our brain for and our life for wholeness and happiness.

LOVE this book! Thank you, Benay!
